

H.D.H. - 2 Roll Mandrel Support Arm

Expand your Weldlogic H.D.H. 2 Roll System to roll small diameters.

The Deflection Arm is designed specifically to support the mandrel to enable rolling small diameter tubes from a wider length roll system.

This Deflection Arm is designed to adjust to the diameter of the smaller mandrel quickly and is removed quickly without tools via quick pins and pivot.

If you wish to expand the capacity of your 2 Roll System the H.D.H. - 2 Roll Mandrel Support Arm is your best option.
